# **POLICY AGENDA**

# POLICY AGENDA

## For the Philanthropic Sector

---

- Advocate for full participation of foundations, corporate giving programs and nonprofits in public policy dialogue and advocacy that affects their organizations, communities, and the people they serve.
- Recognize and support the role of foundations as stewards of resources for the public good to strengthen and improve the health and vitality of communities and residents.
- Encourage robust charitable giving, donor advised funds as a giving vehicle, and respecting donor choice of privacy.
- Encourage the growth, maintenance, and vitality of foundations and corporate giving programs.
- Advocate the importance for continued transparent and equitable grantmaking practices.
- Access to FPN-led and other statewide research reports for the philanthropic and non-profit communities to utilize timely data and analysis to inform policy and advocacy.
- Reinforce the use of equity data as a lens across all areas in the philanthropic sector and the benefits of diversity and inclusion in philanthropy and supported systems.

## Florida Priority Areas

---

<b>Education</b>	Support positions developed by the Education Affinity Group in early learning, K-12, and post-secondary education.
<b>Health</b>	Support positions developed by the Florida Health Funders to promote health equity, behavioral health and primary care, the nursing shortage, and telehealth.
<b>Civic Engagement</b>	Continuing to focus on advancing Civic Engagement, advocating for fair elections ensuring all eligible citizens have full and equal access to vote, and encouraging local and active participation in government and community.
<b>Digital Divide</b>	Advocate for legislation and policies to address the digital divide across the state and the impact this issue has on education, health, and the workforce.
