Guiding Questions for Funders

Overarching Questions

1. Which specific goals of the district does this project support?
2. How does the project impact student achievement for all students?
3. How does the project specifically support Florida’s Standards?
4. What is the sustainability plan for this project after funds/support have been spent?

For Requests Related to Instructional Support

5. How do the curricula, supplemental support materials, and assessments of the project align with the Florida Standards?
6. How is the project monitored and assessed to set benchmarks, make adjustments, and evaluate outcomes?
7. How does the project ensure that learning time and resources are used effectively to support all students?

For Requests Related to Family and Community Engagement Support

8. How does the project support schools in addressing the unique needs of the families and communities they serve?
9. How does the project support the engagement of communities in collaborative planning and problem solving?
10. How does the project empower schools to develop partnerships that align human and social resources to the needs of students and families?

For Requests Related to Purchasing Supplies

11. Provide the rationale/data that supports how the supplies will specifically impact student achievement and align with Florida’s Standards.
12. Who will be using the supplies? How will these supplies support this specific project and the broader goals for the school/district?
13. What are the quantities and cost per unit? Are they aligned to the population being supported?
14. If requesting technology, explain how it is supplemental to the school’s Digital Classrooms Allocation.
